

### Extended Day Cab for HX

Fontaine uses established ship-thru agreements to streamline the manufacturing process.

We can efficiently provide:

- 8" more space for the driver
- Minimal use of special parts
- A solution that requires no special services
- Painted to match custom colors on the original truck
- Minimal downtime in delivery

Fontaine offers other in-service work as well:

- DOT inspections
- Fleet decals and unit numbers
- Equipment installation
- A variety of electronic hardware installations

## HX Extended Day Cab

### Delivering a Little Extra

The International HX is a great work truck. Fontaine helps by providing a little extra space - 8 inches to be exact!

For applications that need a little extra cab room and can spare the cab to axle space, we can help.

### Standard Day Cab

Many applications require the bumper to back of cab and cab to axle spacing provided by the HX cab.

### Extended Day Cab

More driver's space

Uses many of the original factory parts

Retains cab and exhaust mounting positions

Minimizes requirements for special service parts

**INTERNATIONAL**

## HX Extended Day Cab

### Working with Daycab Company

Fontaine uses the best quality products available in all our work.

Daycab supplies the critical parts for the HX Extended Day Cab.

We coordinate component painting and assemble the final product

When requesting a quote, or submitting an order, Fontaine makes this a simple process.

**FONTAINE  
MODIFICATION**

### Standard Cab Interior

A good work space for many applications.

Note the belly room and seat back position

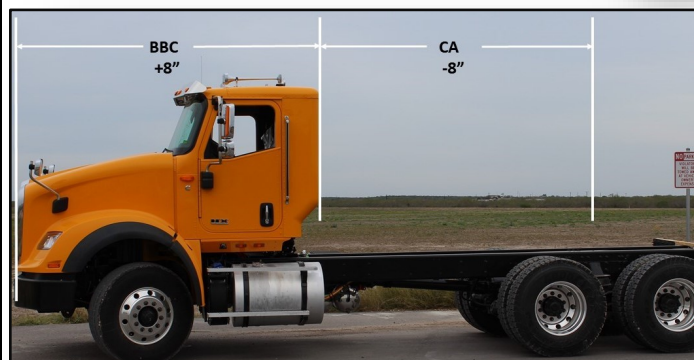

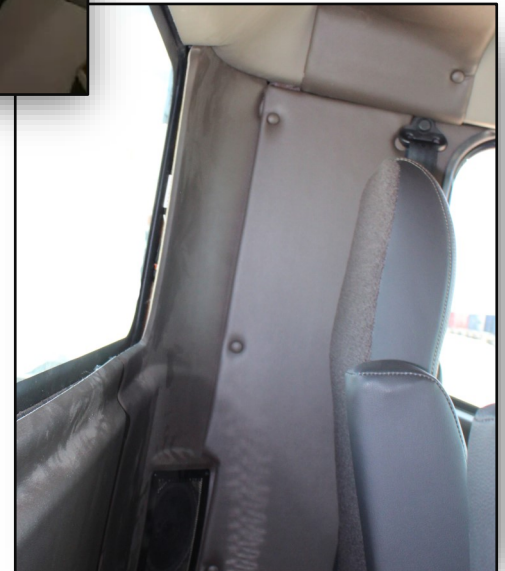

### Extended Day Cab

8" more room in the seat area

Uses factory seating and mounting

Same seat belt mounting and rear window

A LOT more room for the seat to slide rearward

### Remember

This option will reduce the actual CA by 8"

Be sure to calculate wheelbase adequate for your equipment needs & verify weight distribution
